

# Out-of-This-World Dominoes

## Directions:

1. Place all dominoes facedown on a table and mix them up.
2. Each player selects seven dominoes. Keep them hidden from other players.
3. Choose a player to go first and place a domino in the playing area.
4. The next player to the left must place a domino that matches one side of what has been played. If a player does not have a matching piece, they must draw from the leftover tiles until they get a playable piece or pass.
5. The winner is the first player to get rid of all their dominoes.
